ACT 62 AND LITTER ENFORCEMENT CORRIDORS

Signed into law June 2018, Act 62 increases fines for roads designated for stronger litter enforcement along with requiring community service from first time-offenders. The act also creates Litter Enforcement Corridors, a new tool to help Pennsylvania crack down on litter and illegal dumping.

Stronger penalties under Title 18 (crimes code) § 6501

For the first offense, in addition to paying a fine, offenders are required to pick up trash from **5 – 30 hours**. For second and subsequent offenses, this increases to an optional **30 – 100 hours**.

Litter enforcement corridors

Act 62 denotes certain segments of roads as Litter Enforcement Corridors as a way to increase the focus on litter and illegal dumping. These road segments are ones that have a high aesthetic or historic value and will be marked with signs to notify motorists.

Doubled fines

The act adds § 3329 to Title 75 (vehicle code) which **doubles** fines for depositing waste in a litter enforcement corridor, as defined under:

- Title 75, § 3709 for scattering rubbish from a vehicle or not removing all debris following an accident,
- Title 75, § 4903 for allowing a load that is not properly secured to escape from a vehicle,
- Title 18 § 6501 for scattering rubbish onto any road, land of another, or body of water.

Tripled fines

Often, fines levied against commercial dumpers are less than the fees for proper disposal. Act 62 helps remedy this by **tripling** the fine when waste or litter (as defined in title 18 § 6501) that originated from a **commercial business** is deposited in a litter enforcement corridor.

How corridors are designated

Scenic highways defined under Title 74 Ch. 83 are now designated Litter Enforcement Corridors. There are 3 additional ways roads can be designated:

- PennDOT can designate a state route,
- Counties or municipalities can petition PennDOT to designate a state route,
- Counties or municipalities can create an ordinance to designate a local route within their borders.
